

## Anonymous Hotline Service

Syntrio, Inc., a leading provider of online employment law compliance, ethics, code of conduct, and other workplace training courses, proudly announces the introduction of our Anonymous Hotline Service, a new ethics hotline; whistleblower; and Incident Reporting System service. Our Anonymous Hotline is provided in partnership with Lighthouse Services, Inc. the industry leader in providing comprehensive ethical and/or illegal activity reporting services. The toll-free service is available in over 125 countries with translator service in over 140 languages.

Syntrio's Anonymous Hotline is provided in response to a growing demand for anonymous reporting hotlines, a demand resulting from a desire to reduce costly workplace-related litigation; as well as companies' desire to investigate potential ethics violations immediately. Syntrio's CEO, Bette Tomaszewicz stated, *"[t]his new addition to Syntrio's products as a value-added component of a comprehensive ethics training and education program is what our clients want and need."* Andy Bronstein, CEO of Lighthouse Services added, *"[w]e take pride in our personal service, custom solutions, and dedication to making it easy for customers to report legal concerns, ethical violations, and fraud."*

Syntrio's online courses are specifically designed to meet the most pressing employment law, ethics, code of conduct, and other compliance training needs across all industries. Each fully customizable course is delivered via a robust and user-friendly Learning Management System, and provides practical guidance on the legal and ethical concerns that may arise in the workplace through real life case studies and hypothetical vignettes.

Given the rash of high-profile ethics concerns, as well as employment and other litigation facing businesses in the 21st Century, getting at the forefront of potential problems is no longer a luxury, but is essential. Indeed, more and more jurisdictions are requiring training, as evidenced by laws mandating sexual harassment training in CA, ME and CT. Those jurisdictions that do not have statutorily mandated training consider these trainings essential to mounting a defense to all sources of workplace-related litigation.

Syntrio is committed to helping businesses avoid the costly mistakes associated with sexual harassment. We are able to custom-tailor our courses to fit the needs of our clients. Contact [Syntrio](#) for more information about our employment law and Ethics courses for employees and management and remember to follow us on [Twitter](#), [Google Plus](#) and [LinkedIn](#) for daily updates on compliance issues that may impact your company!
